Sabrina Asha

2026

Hi i'm *Sabrina Asha* At 23, I'm about to wrap up my Bachelors in Computer Science (Information Systems) at UNIMAS, but I realized I didn't just want to build systems—I wanted to make them beautiful.

My background in Information Systems has trained me to be analytical, detail-oriented, and efficient, qualities I bring to every creative brief I tackle.

Here is the truth: I don't have a long list of bored corporate clients on my résumé yet. I am a rapid learner, a pixel perfectionist, and I am hungry to turn my passion into your next project. I believe that the best creative work is grounded in intelligence.

While I am new to the professional creative landscape, I am self-taught, tech-savvy, and deeply committed to professional growth. I am ready to deliver high-quality work with precision, speed, and a fresh point of view..

about *me* ♣

university.
projects

2025/2026

social media.

Scope

Instagram Tiktok

Visual Identity: Designed a cohesive Instagram feed and color palette for a student-led tote bag venture.

Content Creation: Produced product photography, graphic overlays, and lifestyle short videos.

Community Management: Managed DMs and audience interaction to drive organic engagement.

Impact: Built an active digital storefront from scratch within a semester timeline.

Tools Used: Canva, Instagram, Tiktok, CapCut.

video content creation.
